### ArriveReady to Study Humanities

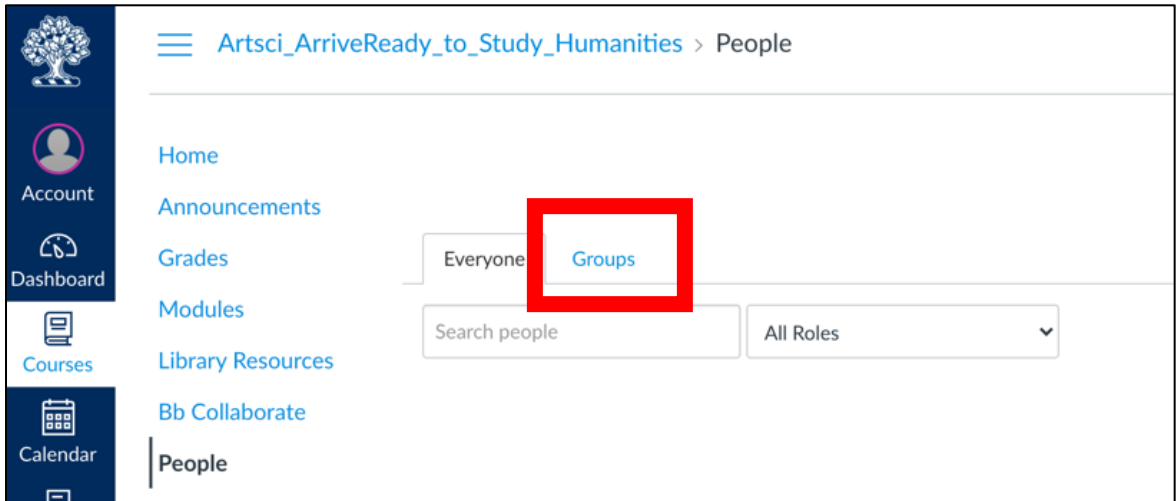

Welcome to **ArriveReady to Study Humanities**. Over the next four weeks, you'll have a glimpse into what it will be like to take your first Arts & Science courses at the University of Toronto!

As part of this program, you'll discover university-level course material developed to help you increase your academic confidence and prepare you for your September classes. We also hope you'll make a few new friends!

In addition to the academic material each week, upper-year Arts & Science students will provide you some tips and suggestions that have worked for them. These tips will help you to effectively engage with the course material. Developing good study habits now will be invaluable when you begin to take multiple courses in September. One of the most important parts of ArriveReady to Study is your participation in our weekly study groups. This is your chance to meet other incoming students and discuss all the new material.
